Plot in Terrassa

Urban plot in a strategic location in Terrassa.

This plot, zoned for new residential development, is ideal for developers and investors seeking a high-potential project in one of the main cities of the Vallès Occidental region. The buildable area allows for approximately 6,454 m² of floor space, offering an excellent opportunity for residential construction in a well-established urban environment.

Located in a well-connected area, just 10 minutes from the train station, with quick access to services, shops, schools, and major transport links.

An attractive option for developing a residential project in a city with high housing demand and excellent connections to Barcelona.

For more information or planning documentation, please contact us.
