House in Blanes

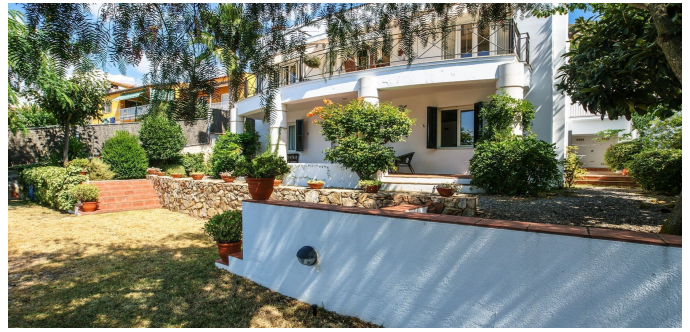

House on the outskirts of San Juan, with stunning views of the sea and Montseny, located about 200 meters from the center, facing south, enjoying the peace and tranquility of the area.

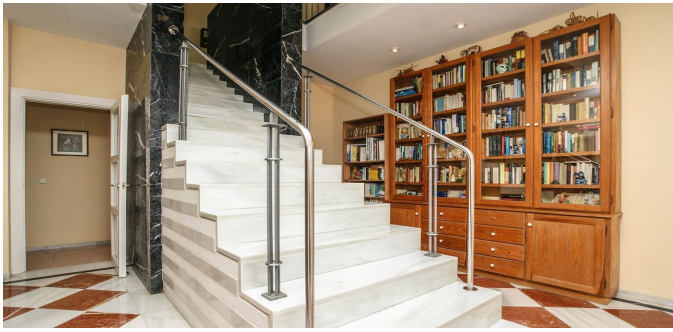

With certain Palladian influences, due to the symmetry and proportions, its sober exterior style contrasts with the spaciousness and light of the interior.

It consists of a spacious living area on the upper floor: entrance hall, large foyer surrounded by the kitchen, pantry, dining room, living room, library, one bedroom, and a bathroom. Large terrace. The central staircase leads to the lower floor, to the porch, and to the sleeping area: entrance hall, master suite with bathroom and dressing room, three bedrooms with another bathroom, two hallways, a laundry room with access to the exterior, and a room under the garage. The house has exterior openings in all rooms, is very sunny, and offers fantastic sunsets. The garden is surrounded by different types of trees, shrubs, and plants for gardening.
