Casa in Costa del Maresme

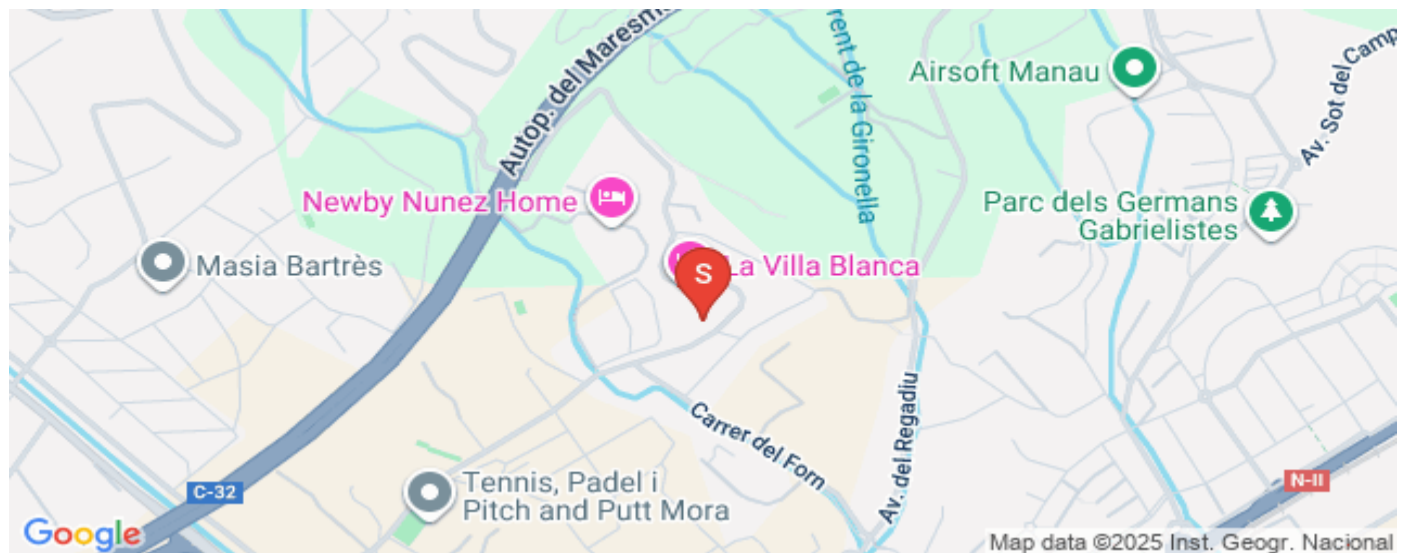

New building in San Vicenç de Montalt.

Villa built on a plot of almost 900 m2, the house has 2 floors, total area of 321 m2. Garden with swimming pool 10x2.5. Quality materials, economy, home automation, designer interior, garage for several cars, sea view. Its delivery is scheduled for early 2026. There is the possibility of choosing the materials of the salon, as well as changing some distribution if it is purchased at the appropriate stage of completion.

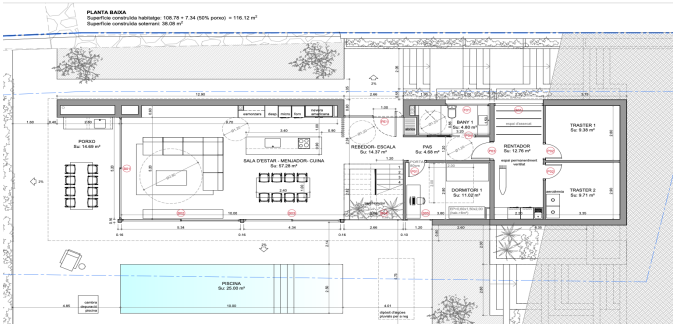

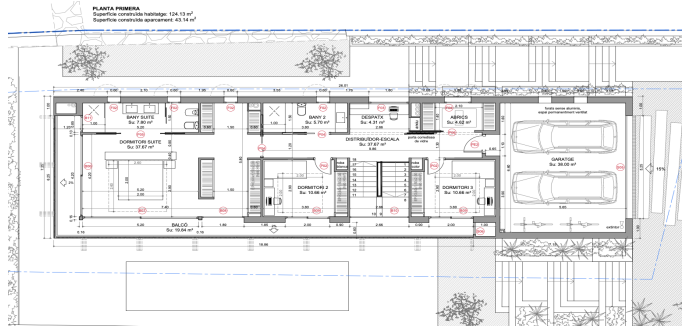

Saint Vicens de Montalt is an ideal location, suitable for those who want to buy a property for themselves in a natural and well-developed area. Located in the Maresme region, just 35 km from Barcelona, this municipality combines the tranquility of a coastal town with high quality services and an upmarket community.

It is part of the so-called "golden triangle" together with San Andrés de Llavaneras and Caldes d'Estrac - great neighborhoods and close proximity to Barcelona.

A professional approach by an experienced team of Spanish architects and builders.
