Villa in Benahavis

Beautiful and very large villa in Los Flamingos, Benahavis, with an open-view of the Mediterranean Sea and further on the coast of North Africa and the cult gibraltar rock. This villa overlooking the prestigious 5-star Villa Padierna hotel with a popular 18-hole golf course provides calm, beauty and safety. Designed and built with stunning landscapes, architects of this villa provided the maximum pleasure from the surroundings, adding large terraces and raised balconies available from almost every room. House area 680m2, on a plot of 1500m2, with 6 bedrooms and 9 bathrooms. Entry through a large lobby with a dual height ceiling. The first floor consists of a large living room, a winter garden with glass curtains and a spacious dining room leading to family cuisine. Although all this, in essence, individual rooms, the design was skillfully designed using partitions, not walls, which gives a bright and open central residential zone. At the top level there are 2 bedrooms, one of which is the main bathroom. There is an impressive dressing room, which leads to a spacious main bedroom with an open-plan bathroom. The ceiling is crowned with wooden beams, and from separately standing luxury baths offers a magnificent view that can be enjoyed with a raised platform. The lower level is a space that is currently a big game room, a recreation area, staff facilities and additional full-fledged bedrooms with bathrooms, all with large windows. In addition, there is an additional and fully separate guest apartment with 2 bedrooms, which can be reached independently of the main villa. In the garden, as much as possible, the charming species, the impeccable pool goes to the green Ferrevi Golf Club Los Flamingos.
