Villa in Fuengirola

Unique and very original home. The owners fully changed the design of the villa, but retained its traditional character. Modern house with many industrial strokes. Its form is rectangular, everything is addressed to the sea and the port of Fuengirola. Layout: first floor: large garage, entrance, large living room with kitchen, terrace, two bedrooms and two bathrooms, all with bathrooms. At the moment there are two bedrooms. And two bathrooms, but with sufficient space for two more bedrooms. There is a large living room, which connects with a terrace of a hall and a garden, a second kitchen and laundry. Air conditioning in the whole house, heating, solar panels, thermal / bulletproof windows of the KomerLimm brand, beach-type pool and tank. La Capellan is a quiet residential area with round-the-clock security, next to several bars, restaurants, supermarkets, sports field, spa, etc. The city is 5 minutes by car, the airport is just 15 minutes. And the beach is 7 min. with car. There are several famous golf courses and international schools, an international hospital and much more.
