## Villa in Marbella

Villas overlooking the sea and panoramic views of the Gibraltar Strait, the African coast and the Sierra Blanca Mountain. Each villa uses high-quality materials, German quality of construction and environmentally friendly technologies. Each villa has a clean and elegant design with an open layout. The inner life is organically combined with the exterior due to the large glass doors and external space. Wooden panels and natural stones included in architecture add unpretentiousness of the finish and combine nature with urban life. On external terraces there are fences and railings from safe glass. Floors are decorated with large-sized ceramic granite. Internal joinery, including built-in wardrobes with hidden loops, smooth closing mechanisms and seamless connections. Each villa has 5 bedrooms and 5 bathrooms. Residents can count on complete confidentiality and safety provided by round-the-clock guard; Posted by the main entrance and on the wall around the perimeter. Individual pools with sea water and beautifully well-groomed gardens with automatic irrigation and decorative backlit. When the villas have a large outdoor basement, which can be a room equal to your dream. Maybe a game room / cinema. Or a luxurious gym with better equipment.
