Townhouse

New Townhouse complex with sea views, within walking distance of Fuengirola's sandy beaches and Mijas Costa. The houses have three bedrooms and three bathrooms, equipped open-plan kitchen, bright and spacious living room with glass doors from floor to ceiling. Glass doors lead on a partially covered terrace and a private garden, where you and your family can enjoy the dinner in the fresh air, admiring the view of the sea. Spacious bedrooms on the ground floor are equipped with fitted wardrobes and bathrooms. In the main bedroom there is a dressing room and access to the terrace. At the top level there is a large terrace / solarium, a place to relax and enjoy the sun all year round. All townhouses have private parking, and some homes have a ground floor that can be used to implement any idea of the owner. On the territory of the closed complex there is a swimming pool and a well-kept garden. This area has long been popular with foreign guests who like a temperate climate, beaches, shopping and a quiet way of life on Costa del Sol. Stunning Costa del Sol's beaches are within walking distance, which makes this complex the perfect place to relax. Marbella and Puerto Banus are just 20 minutes away, and Malaga Airport and the city of Malaga are just 15 minutes away.
